LONG CIVIL RIGHTS FIGHT, IKE TOLD

Czechs Greet Soviet Bosses At Border

PRAGUE, Czechoslovakia (UP)—Soviet Communist Party boss Nikita Khrushchev and Premier Nikolai Bulganin crossed the border into Czechoslovakia today to give a first hand report on the Kremlin purge to shaky Czech Communist leaders.

Reports from the Czech border station of Cerna-on-Tisa said the train passed through from the Ukraine at 3:30 a.m. e.d.t. With Khrushchev and Bulganin were Soviet security chief Gen. Ivan Serov and a delegation of top leaders.

The train was due in Prague tomorrow morning when the Soviet leaders are expected to give their account of the anti-Molotov purge. Other East European Communists also may be called in for first hand briefings.

Czech News Agency dispatches from the border city at the eastern end of Czechoslovakia said the Russians were met by a group of leading Czech Communists. It appeared the preliminary party talks would be held on the train ride from Cerna to Prague.

The welcoming group included Czech Politburo and Central Committee members Karol Bacilek, Rudolf Barak, Vaclav Kopecky and Antonin Novotny who is secretary of the Central Committee of the Communist Party.

Reports said the Czech leaders were a worried lot, not knowing exactly what to expect.

Official reports in Prague Monday (Continued on Page 3, Col. 6)

Good Evening!

Million-dollar drizzle.

If it kept up three days, worth a billion.

And all the lawnmowers in the neighborhood making you wish you lived in a boiler factory.

All-Star game in St. Louis today and the Nationals should win it handily.

If Manager Walt Alston lets Curt Simmons get it started out right, no doubt about the outcome.

Pyrotechnics before the Supreme Court as the much-argued Girard case is argued.

If the nine robbed men of the nation's highest tribunal decide in the same spirit of some of their recent earth-quakers, you can figure on Japan winning the case.

Three minutes of siren wailing last night in a civil defense "test" with another scheduled on Friday.

We wonder sometimes about the logic of all of the valueless racket and disturbance of these so-called "civil defense" tests, of the ill-organized program itself.

It seems to us the truly big job is complete U. S. dedication to preventing the very first A—or H—bomb drop. If there should ever be one on the Philadelphia metropolitan area, just who would be around afterward to put "civil defense" into operation?

Men who work five days a week probably do as much around the house as men who work seven.

Notice how many people are talking about going fishing now? It's catching.

Her husband is one thing a woman doesn't understand about marriage.

If you drive, be careful.

Scouting Jamboree

Part of the 200 Boy Scouts from Bucks County are shown as they prepare to board a bus in Dublin this morning for Valley Forge State Park to participate in the

world-wide Boy Scout Jamboree. Scouts from Trevose, Langhorne, Newtown, Levittown and Morrisville are in the contingent. (See Story, Page 3)

2 Accused American Spies Claiming French Asylum

PARIS (UP)—George Zlatovski, 47, former U.S. Army intelligence officer, said today the French government had granted him and his wife political asylum from American charges they had spied for Russia.

But a spokesman for the French Foreign Ministry said, "I know nothing about that."

Zlatovski and his wife, Jane Foster Zlatovski, 45, were indicted yesterday in New York by a federal grand jury on espionage charges. They would have to be extradited to the United States for trial.

In New York, U.S. Attorney Paul W. Williams said no formal request for extradition had yet been made to the French government although it has been kept informed on the spy investigation.

It was understood that the French had cooperated with American officials in keeping the couple under surveillance and perhaps in the investigation itself.

Williams refused to comment when asked whether there was evidence that the Zlatovskis or others of the espionage ring had spied on the French or other Western governments as well as the United States.

The U.S. attorney said warrants for the arrest of the Zlatovskis will be prepared in New York today and forwarded to the Department of Justice at Washington, for transmission to the Depart-

GEORGE ZLATOVSKI

JANE ZLATOVSKI

ment of State, which will then take the matter up with the French.

Zlatovski said he could make no statement about the espionage charges against him because he and his wife had been given political asylum in France and he did not want to say anything that would "embarrass" the French government.

Asked if he had any statement to make about the charges he replied, "No, I have absolutely no statement to make. You have

read the papers and know as much as I do."

He said he had heard nothing from either the American or French governments.

The couple live in a small apartment on the Left Bank of Paris.

A Foreign Ministry spokesman said the request for extradition would have to be submitted through diplomatic channels — by the State Department to the French Foreign Ministry.

The request would be relayed to the Ministry of Justice which in turn would give it for final action to a special court set up to study the indictment.

If the United States takes legal action to have the two Americans returned, they would have to be arrested by French police and held in prison not longer than 21 days while the court decides on the extradition question.

If the answer is "yes," the two would be sent to America for trial.

The Zlatovskis were indicted by the same grand jury which indicted Jack and Myra Sobel and Jacob Albam last January in New York for conspiring to obtain U.S. defense data for Russia.

Senator Sees Battle Up To 8 Weeks

WASHINGTON (UP)—Senate Republican Leader William F. Knowland told President Eisenhower today that the civil rights battle in the Senate could take "four, six or eight weeks" and possibly longer.

The California senator said Eisenhower was "fully aware" of the possibility that by giving priority to the filibuster-threatened civil rights debate the Senate may be prevented from acting this session on several of the President's legislative proposals.

Knowland and other Republican congressional leaders who met at the White House with Eisenhower this morning declined to say whether the President approved of the party's parliamentary maneuvers which sidetracked other bills to turn the floor over to the civil rights debate.

Knowland said he suggested, in a "humorous vein" that while the Senate is embroiled in the debate the President and the House of Representatives could take off on vacations.

House Republican Leader Joseph W. Martin Jr. added that he hoped the Senate would be "generous enough" to allow House members a vacation during the debate and "if that is the case, there is no reason why the President could not take one too."

Senate Democratic foes of the administration's civil rights bill raised hopes of a compromise, saying they would "accept" a proposed amendment to assure jury trials in most rights cases but would continue to fight the bill.

Sen. Richard B. Russell (D-Ga.) leader of the southern Democratic bloc pledged to all-out war against the administration's racial rights measure, told newsmen the pro-

(Continued on Page 3, Col. 1)

Large Motel Sign OK'd

The Bristol Township Zoning Board of Adjustment last night gave permission for a large motel sign off the turnpike near Bristol-Oxford Valley Road.

The variance was requested by Bristol Motel Inc., who wanted the sign to direct motorists to its new establishment.

The board deferred action on two other variance requests since the petitioners did not attend. They will be considered at a July 22 meeting.

William J. O'Neill, chairman of the adjustment board, said the group approved the sign since it would be an aid to township business. The sign will be 694 square feet. The zoning code stipulates that signs can be no larger than 100 square feet.

O'Neill said that it would be a hardship on a local business if the sign was not approved. The board had rejected a previous request from Howard Johnson's for a similar, but larger, sign to advertise its motel in Bensalem Township.

O'Neill said he couldn't see why the board should grant a similar variance to a firm that would draw business from the township.

New Survey Urged For Boro Drive-In

A suggestion that the Pennsylvania Economy League be asked to survey the advantages and disadvantages of a drive-in theater to a community was made to Bristol Borough Council last night, with the Route 13-Route 413 theater site in mind.

Dudley Bell, of 824 Radcliffe St., who is organizing a Bristol Taxpayers Association, suggested it and said the League is willing to make the survey. He spoke after Council moved to delay, for committee study, action on an amendment to the ordinance leasing the theater site to Eric Corp. of America.

The proposed amendment, read to Council by Borough Solicitor John P. Fullam, included new plans for improvements to protect the borough wells, but Borough Consulting Engineer William Boardman said there was practically no change in the new plans.

Extension

The amendment would extend the 18 months for construction of the theater if it should be delayed by a law suit, and extend the lease accordingly. It permits Eric Corp. to withdraw from the lease if legal action should hinder the theater. It also includes changes in the arrangements desired by the borough.

The Bristol Township Board of Commissioners has instructed its solicitor William J. Carlin, to seek a court injunction against the theater.

The new plan had been referred to George A. Elias, district sanitary engineer of the State Health Department, Mr. Fullam said. He read a letter from Mr. Elias saying "this is still the general plan." Mr. Elias suggested cast iron pipe for a sanitary sewer line on the premises and asked for detailed plans to see

(Continued on Page 3, Col. 1)

RR Commuter Hike Put Off

HARRISBURG (UP)—The Public Utility Commission has suspended until next Jan. 16 an average 15 per cent increase in commuter fares proposed by three Pennsylvania railroads.

The commission set back the proposed rate hike sought by the Pennsylvania Railroad, the Reading Co. and the Pittsburgh and Lake Erie Railroad six months and ordered an investigation to determine if the boost is justified. The PUC said public hearings will be held before a decision is reached.

The increases primarily would affect commuters in the Philadelphia, Pittsburgh and Harrisburg areas. The railroads told the commission the rate boosts were needed to partially offset heavy passenger losses.

The proposed schedules generally would increase charges for unrestricted monthly tickets by \$3. Other general increases would include \$2.70 in the restricted monthly ticket, \$2.25 in the school ticket, \$1.80 in the 24-ticket, \$1.50 in the 20-trip ticket and 75 cents in the weekly ticket.

Passengers Silenced On Grounded Ship

HAMILTON, Bermuda (UP)—Capt. E. C. Hicks imposed silence today on the crew and passengers aboard the stranded cruise ship Reina Del Pacifico in preparation for new attempts to haul the ship off Bermuda's white coral reefs.

The 17,872-ton luxury liner ran hard aground between two coral reefs in Bermuda's north channel early yesterday with 700 passen-

gers and 300 crewmen aboard. Efforts to refloat the liner failed all of yesterday.

Hicks ordered his passengers and crew not to answer questions about the mishap, but the passengers leaned over the rail and told reporters there was four feet of water in the crew quarters. They appeared carefree and in holiday mood, however.

The interview was interrupted by a ship's officer who threatened to turn fire hoses on the reporters' little cabin cruiser unless the newsmen moved out of hearing distance.

Delaware Canal Talk Tonight In New Hope

The future and alleged financial problem of the Delaware Canal will be discussed by Bucks County leaders and officials at 8 p.m. tonight in the New Hope High School gymnasium.

The meeting was called by Hal H. Clark, president of the Delaware Valley Protective Association at the request of Dr. Maurice K. Goddard, state secretary of forests and waters. Dr. Goddard is expected to attend.

Trial Starts

Segregationist John Kasper (center) talks with two unidentified men at Knoxville, Tenn., prior to the start of his contempt trial. Kasper and 15 others are accused of conspiring to prevent orderly integration at the high school in Clinton, Tenn.

Full Kasper Jury Expected Today After Slow Start

KNOXVILLE, Tenn. (UP)—The trial of 16 persons for interfering with Clinton, Tenn., school integration plodded along today without another juror being chosen in the first hour.

Only four were seated Monday when the trial opened. The first two questioned today were excused after painstaking interrogation by the defense.

Defense counsel Robert L. Dobbs excused Mrs. Walter Buchanan of Knoxville after she revealed she had been a college classmate of the prosecutor, John C. Crawford Jr. It was the fourth of the defense's 10 peremptory challenges.

Paul French Holly, an undertaker in Clinton, scene of the disorders, was excused for cause after he said people in Clinton felt that John Kasper, the central defendant, was responsible for the trouble.

Because of the slow progress, it appeared doubtful a jury could be completed today.

The opening day of the trial yesterday was painfully slow with only 11 prospective jurors from a panel of 66 questioned and only four seated.

The prospective jurors faced three lines of questioning, from the government and the defense as

(Continued on Page 3, Col. 2)

Air Raid Sirens Go Again Tonight

Air raid sirens will be sounded again tonight throughout Lower Bucks County in an effort to familiarize residents and CD workers with signals so proper action can be taken in the nationwide alert planned for Friday.

In most areas, the signals will start at 7:15 p.m. with a steady three-minute blast. This will be the alert signal to warn residents to prepare to take cover. At 7:30 p.m. the take cover signal, a three-minute pulsating signal, will be sounded.

In Bristol Township, however, Clarence Bixler, CD director, said practice signals will be sounded

at 8 p.m. Residents are not to take any action on the signals tonight, but only familiarize themselves with the siren blasts so they will know what they mean when the real practice alert comes Friday.

Col. A. M. Heritage, county CD director, said Friday's alert will come between 11 a.m. and midnight. All traffic must stop and pedestrians must take cover, he said.

Each local CD unit can practice whatever drill it wants. In the Neshaminy area, volunteers will track fallout from a simulated bomb blast. The tracking will be done by the radiological and radio-communication units, which will inform the public by public address systems of the amount of radiation in the area.

Confessed Voodoo Slayer Is Scheduled For Hearing

VINELAND, N. J. (UP)—Juan Rivera Aponte, 45, Puerto Rican farm hand who police said admitted the chance slaying of a teen-ager neighbor boy to get a human skull for use as a voodoo love lure was scheduled for arraignment on murder charges today.

Director of Public Safety Arthur L. Joseph said Aponte, who al-

legedly killed 13-year-old Roger Carletto and then accused his employer of the crime was listed for a hearing before Municipal Court Judge Daniel Grosso.

Held As Witness
Idek Rosenblum, a Polish displaced person on whose farm the macabre slaying took place last Oct. 13, was exonerated of the slaying at a hearing last night but was held in \$2,500 bail as a witness in what Joseph described as a technicality.

Joseph said Aponte gave police a signed statement in which he admitted strangling the Carletto boy when he wandered into the chicken house on the Rosenblum farm which Aponte used as living quarters.

Lived 100 Yards Away
The youngster lived less than 100 yards away on North Mill Road in Vineland, and was a fre-

quent visitor of Aponte to "sneak a smoke," police said.

Aponte allegedly told police the killing was inspired by his reading Black Magic books, printed in Spanish and marked with cabalistic drawings.

He said the books "told him" that powder from a dried human skull would serve as a love potion to bring women to him.

He buried the boy in a sandy grave in the chickenhouse, watered it three times daily so the ground would settle "and the hollows wouldn't show" and then dug up the remains seven months after the slaying.

Police said Aponte admitted he cut away the top of the boy's skull, and hung it on string in a dismantled two burner kerosene stove to dry.

He led police to the skull yesterday.

New Survey Urged For Boro Drive-In

(Continued From Page One)
that it complies with the borough water permit.

Mr. Boardman, invited to the meeting by Burgess Anthony R. Nicol, said the borough should insist on "every precaution" to protect the public water supply.

Mr. Nicol, restating his opposition to the theater lease, said he is leaving Saturday on a vacation trip to Canada, and wanted his stand known in advance of any meeting he might miss.

"I want to be on this until the end," the burgess said.

Deferment of action on the amendment was urged by Councilman Samuel Navetta, speaking for the finance and public property committee, to discuss the issues and seek a complete plan. Councilman Henry Kornsiedt, committee chairman, presided at last night's meeting in the absence of President William J. Veitch on a vacation trip.

Civil Rights

(Continued From Page One)
posed amendment was "not completely satisfactory but I am willing to accept it."

The administration and other supporters of the bill contend it would primarily protect Negro voting rights. Southern foes maintain it would permit the federal government to enforce school desegregation at bayonet-point.

O'Mahoney Offers Change

Southerners particularly object to the fact that the bill does not provide jury trials for persons accused of contempt of court for violating injunctions obtained under the measure.

Sen. Joseph C. O'Mahoney, (D-Wyo.) in an impassioned 54-minute speech late Monday, proposed an amendment to guarantee jury trials in all civil rights cases where questions of fact are involved. He said this would rule out right-to-vote cases and would "assure the voting rights of Negroes in every part of the South." Southerners want jury trials in all cases brought under the bill.

Russell said the O'Mahoney amendment was "highly to be preferred to no jury trial." But he left no doubt its adoption, if agreed to by the Senate, would not lessen the battle against the bill itself.

GOP Mostly Silent

Republican supporters of the administration bill were cool toward the amendment but would not commit themselves definitely. The chief goal of such an amendment, apart from its legal aspects, presumably would be to lessen Southerners' all-out bitterness over the bill and possibly to influence marginal votes which might be crucial in an eventual effort to "gag" a filibuster.

The Senate was set to begin the second day of what promises to become the "filibuster of the century" over racial rights legislation. It was technically debating a motion by Senate Republican Leader William F. Knowland (Calif.) to consider the House-approved four-point administration bill.

The bill provides for a bi-partisan commission to study alleged rights violations, a civil rights division in the Justice Department, new protection for Negro voting rights, and authority for the government to seek injunctions or other court action to halt threatened rights violations.

Seeing Levittown

By LEE GARB

REPAIR DEPT: Alberta Volpe, public relations director for the Levittown Emergency Squad wants to correct an erroneous idea that has resulted in some criticism of the group. The Squad made a contribution to the Marty Brennan Fund . . . but while it was made in the name of the Levittown Emergency Squad, Mrs. Volpe explained that the money was collected from individual squad members. It was not from the squad treasury.

Horace Greeley McNab, public relations director for the Levittown Businessmen's Association comes by his name legitimately.

Horace Greeley was his great-great grand uncle. Incidentally, Horace tells us that when the famous "Go West, young man" bit was spoken, it was in reference to Erie, Pa., which, at the time was pretty far west!

The LPRA has announced that

new residents (who are buying new Levittown homes in Middletown Twp.) will receive instructions on joining LPRA and getting their pool tags when they make settlement.

People who are moving into Levittown and have purchased a home through a resale may join LPRA by contacting the Levittown Administration Building LPRA office.

Rumor has it that Mike Todd and Elizabeth Taylor are about to become Bucks Countians for the summer . . . they've leased "Dancing Meadows," in New Hope from party designer, Bill Foerst, who moved to Delancy St., for the term of the lease. . . .

We hear that the food budgets in Falls Township are being drastically reduced . . . everybody's so constantly engaged in discussing sewers that appetites are falling off.

Board to Ask Bids On Drainage System

The Pennsbury Joint School Board last night voted to call for bids on a tile-sealed drainage system for the new Charles H. Boehm Jr. High School.

Forest C. Jobes made the motion since "the proposed sewer plans are not expected to materialize for another two years and the school will be completed by early September."

The tile-drainage system is expected to cost about \$50,000. The Boehm school is costing an estimated \$2,225,000 and eventually would "hook into" the Township of Falls Authority facilities once they are completed.

The current proposal, offered by the Danherst Corporation to the Authority, would extend the sewerage lines into both the new school and the Pennsbury High School which is at the site. In addition, it would extend sewer lines into other portions of Lower Makefield Township.

The Pennsbury High School has a tile-drainage field similar to the one proposed which now will have to be added to, and the Board also voted to draw up specifications for an extension of it that will cost an estimated \$35,000.

At a meeting of the Falls Township School Board prior to the joint school board meeting, it was announced that the Village Park Elementary School would be completed two weeks behind schedule.

Now under construction between Vermilion Hill and Fairless Hills, the school was scheduled for completion by Sept. 5, but because of a delay in receiving a shipment of metal door frames, according to architect Ronald Vaughn, the delay is necessary.

School officials said it would probably mean that 300 students will face half-day sessions for three to four weeks. The eight room school, costing some \$200,000, will accommodate 300 students.

Bristol Boro Awards \$19,000 In Street Jobs
Nearly \$19,000 in contracts to improve the Bristol borough streets was awarded by Borough Council last night, with the announcement that more improvements are soon to come.

At the same meeting, Council authorized the State Highway Department to go ahead with the Bath St. and Bath Road improvement project, including straightening the road at Silver Lake, where a new bridge will cross Otter Creek.

On bids announced to Council by Councilman Alfred Cordisco, chairman of the street and highway committee, Council awarded projects for \$8,438.76 to Meredith Construction Co., \$9,592.36 to Kauffman Brothers and \$908.20 to Emidio Costantini, a total of \$18,939.32.

1,700 Children Start Taking Swim Lessons

Struble Asks Paul Take Sewers Stand

David A. Struble, "spokesman for Edward R. Howley, Paul A. Terrels, and John E. O'Brien, said in a statement today that he was "amazed at Republican chairman, Jim Paul's effort to make a partisan political issue out of the sewerage problem."

"The interest of the Democrats in this question," said Struble, "stems from a sincere desire to see all the facts presented to the public prior to any decision being made. Furthermore, we resent Paul's efforts to 'gag' us because we already have sewers."

"The Township of Falls Authority was created by the Falls Township Supervisors," he continued, "and as citizens of Falls Township, we have every right to ask questions about the past, present or future conduct of the authority."

Ask Questions

"Incidentally, Jim Paul also has sewers," he said. "The Danherst Corporation took over a year to come up with the present proposal, then presented it on a 'take it or leave it' basis to the Township of Falls Authority," he continued, adding, "Now, because we ask some pertinent questions about the plan, we are called 'political hacks' and 'grandstanders.'"

Struble stated that he did not regard the sewerage problem as a partisan political issue because "two leading republicans, Sidney Cadwallader, former member of the Republican State Committee, and John Thomas, the first republican committeeman in the Levittown section of Falls Township, have been in the forefront of the effort to get more information on the sewer question."

Meeting Tonight

In concluding his statement, Struble challenged Paul to "attend tonight's meeting of the Township of Falls Authority and express his own position on the sewer proposal unequivocally."

The meeting has been called for 8 o'clock, in the Falls Township Municipal Building, in Fallsington.

Lax Driver Draws Blast

Mrs. Betty Welch of 72 Vicar Lane, Vermilion Hill section, reported today that if the driver of the car that hit her fox terrier at noon yesterday had stopped to give aid, the dog might have reached the vet's in time to save its life.

Neighbors who witnessed the incident, said that the car was "going too fast" on Vermilion Drive at Vicar Lane. It also was stated that they called to the driver who slowed down at the end of the block and looked back.

"When he saw it was a dog instead of a child, I suppose he decided not to bother stopping," said Mrs. Welch. The dog, which had a broken leg and internal injuries, had lost too much blood by the time it was taken to the hospital, according to Mrs. Welch.

"My two daughters are heartbroken," she said, "and our neighbors are furious at the callousness displayed by the driver of the car. Personally," she said, "I'm just sick about it."

Lusty Comedy Premieres At Bucks Playhouse

By GORDON PARKER

Courier and Times Staff Writer
"The Mistress of the Inn" a lusty musical comedy made its world premiere to a full house at the Bucks County Inn, New Hope, last night.

The show, written by Bucks County's own Don Walker with lyrics by Ira Wallach, is about an innkeeper, Mirandolina, played by Beatrice Arthur. She has a different approach to love — she wants a man she can't have until she gets him.

"Manly Man"
Lester Ferguson as the Cavalier of Riparaffa portrays the "manly man" who is immune to the mistress' approaches. When the Cavalier rejects her, Mirandolina sounds the hunting call in a bawdy number "Tan-Tivy."

Jack Cassidy returns to the playhouse stage as Fabrizio, the waiter, who watches the hunt with disgust and does his best to lure the quarry to safety.

John Call and Gene Saks provide good comedy in their portrayals of the Count of Albariora and the Marquis of Forlipopolli. Both are in love with Miran-

Summer Transport: The Tube

Yesterday's intense heat was no problem to Fred Schwartz, of 2908 Hulmeville Road, Eddington. He climbed aboard an

old inner tube at Silver Lake and paddled away. (Courier and Times Photo)

LCA Outlines Study Scope

A statement of policy on the scope of the Incorporation Study currently being petitioned for, was issued last night at a joint meeting of the Incorporation Study and Government Committees of the Levittown Civic Association.

"The LCA is, of course, interested in the entire area," said Joseph Segal, LCA president, "but our organization can only speak for those municipalities in which Levittown lies." The statement was issued because some question had arisen as to whether or not the scope of the suggested survey was broad enough.

In order to provide further clarification, the committee offered the petition itself, which says:

"We, the undersigned, request that the commissioners of Bristol Township join with the Middletown Township Supervisors, the Falls Township Supervisors, and the Councilmen of Tullytown Borough in sponsoring an impartial survey by an independent organization such as the Institute for State and Local Government of the University of Pennsylvania for the purpose of determining the feasibility or desirability of uniting the above mentioned governmental units in some consolidation, type of government, and necessary state legislative action."

Early Ruling Seen In Girard Case

WASHINGTON (UP)—Eight Supreme Court justices sit down today to weigh the fate of G. I. William S. Girard, whom the United States wants to deliver to Japan for a manslaughter trial.

After hearing almost four hours of argument Monday on the stormy issue, the court took it under advisement without saying when a decision would be forthcoming.

Chief Justice Earl Warren gave both sides permission to file additional data by this morning if they wish. The fact that such a brief time was allowed pointed to an early ruling.

JP Dougherty Says Free Service Lost

JP Earl B. Dougherty, Bristol Township Democratic Chairman, today charged that five Democratic Commissioners had eliminated a free service to the taxpayers when they removed him as committing magistrate last week.

Dougherty charged that the five acted on "a personal basis and with no regards for the people." He said they were ignorant of the services performed by a committing magistrate when they acted.

Three of the five were "lame duck commissioners," he said, adding that he was afraid they might pass more harrassing and damaging legislation as their terms run out.

Dougherty, who is still a justice of the peace, said that as a committing magistrate he was actually a public information bureau. Township clerks and police were constantly requesting information from him or referring residents to him, Dougherty said.

Dougherty said he had an obligation as committing magistrate to answer all information requests. "But now the commissioners have removed this obligation and the people have no place to obtain legal information," Dougherty said.

The JP also pointed out that he was available 24 hours a day, as a committing magistrate.

The motion to remove Dougherty carried by a five-to-four vote with two commissioners abstaining.

The five, who voted against Dougherty and whom he assailed today are: Eugene Kehoe, board president; Joseph McGeever, El-

Czechs Greet

(Continued From Page One)
day night said Czech President Antonin Zapotocky led the welcoming group, but Czech dispatches from the border today made no mention of him.

Novotny, speaking at a welcoming stand erected at the frontier station, remarked on the "creative policy of the Central Committee of the Communist Party in achieving Soviet unity."

And in a reference to the Soviet government shakeup he said, "Our whole party accepted with complete agreement the decisions of the last meeting of the Central Committee . . . at which the inviolable unity of our party . . . was further strengthened."

He also reaffirmed Czechoslovakia's adherence to the decisions of the 20th Communist Party congress when Khrushchev launched the de-Stalinization campaign.

Khrushchev replied the visit was to acquaint the Russians "still better" with Czech progress. He said Soviet-Czech friendship was "steeped in the fight against Hitlerite Germany."

Bulgarian and Khrushchev flew from Moscow Monday to the Ukraine and changed to a train for the remainder of the journey, the first out of Russia since the purge of former Premier Vyacheslav Molotov and Georgi Malenkov and a number of their associates from the Communist Party presidium.

To Set Clambake

Interstate Marine Association will meet 8 p.m. Thursday at the Third District Fire House, Harrison St., off Bath Road, Bristol Township.

Final plans for clambake to be held July 28 will be completed. Training films will be shown.

500 Enroll At Country Club Pool

The biggest splash ever heard in Levittown resounded yesterday when about 1,700 children, mostly six to nine years old, leaped into the community pools to get their first lesson in the beginners swim class.

The biggest turnout for the beginners was at Country Club Park pool where about 500 youngsters enrolled. The other four pools had about 300 each.

Instruction Schedule
The schedule for free instruction in swimming by the Levittown Public Recreation Association is as follows:

Classes for beginners, at all pools, from 10 to 11:30 a.m., Monday through Friday.
Classes for intermediate swimmers, at all pools, from 11 to 11:30 a.m., Monday through Friday.

Adult swim lessons will start July 15 and continue through July 28, on Tuesday, Wednesday and Thursday evenings, from 7 to 8 p.m. The number of pools to be used for adult instruction will depend upon the number of registrants.

Special Instruction
Special instruction in synchronized swimming, competitive swimming, life saving and diving will be given on Friday mornings at all pools.

A record number of residents have registered for the LPRA swim classes this year, it was stated by Dick Gersuo, executive director of the organization.

"We're running two sessions of classes," he said, "one from July 8 to July 26, and the other from August 5 to August 23. We anticipate that this summer more than 8,000 people will receive instruction in the LPRA classes."

The current swim program, he said, includes several swim meets with teams from other pools in Bucks County.

Mortars Pound Israel Town

JERUSALEM, Israel (UP)—The Israeli settlement of Gonen was pounded by intensive mortar fire from Syria today. The bombardment is still continuing, an Army spokesman said.

The Israeli cabinet was in session when news of the attack reached Jerusalem. It had been called in special session to discuss foreign affairs problems in connection with the forthcoming European visit of Mrs. Golda Meir, the foreign minister.

Two ministers, absent from the meeting, were stopped by police on the road outside Jerusalem and told to return immediately.

Col. Nehemiah Brosh, the army spokesman, said Syrian soldiers first opened rifle and machine gun fire on an Israeli police patrol south of the Gonen settlement. One policeman was seriously injured.

The patrol returned the fire, he said. The Syrians then opened up with mortar fire, he added.

A communique issued by Brosh said: Syrian fire began at 12 noon Israel time (6 a. m. e. t.).

Brosh also said that an Israeli plane was shot at while spraying crops in a field belonging to the Geshet settlement, south of the Sea of Galilee in the Jordan valley. The pilot managed a forced landing.

The Gonen settlement is north of Lake Huleh and close to the Syrian border. It has been subjected to a long series of attacks from Syria. In October, 1955, Syrians kidnapped an Israeli soldier, and engaged in sabotage and espionage.

Bakhtiar also confirmed that Khosrow Roozkeh, a top Iranian Communist who was arrested earlier this week, definitely "served the interests of a foreign power" (evidently the Soviet Union), and engaged in sabotage and espionage.

Bristol 7-Year-Old Hit By Automobile

A seven-year-old Bristol boy needed three stitches for a head cut after a car hit him on Wilson Ave., near Harrison St., yesterday.

The boy, Philip Morgan, of 333 McKinley St., was taken by the driver to Delaware Valley Osteopathic Hospital. He was also treated for bruises of the back. He was released after treatment.

Borough police said the car was driven by Robert MacDonald, moving slowly south on Wilson Ave. The boy ran across the street without looking, police said. The driver skidded after applying his brakes.

Texas Scouts Land First

VALLEY FORGE, Pa. (UP)—The state of Texas, which with due modesty admits to being first in everything, landed the first contingent of Boy Scouts to the fourth national jamboree here today.

A group of 780 Texas boys rolled into the national camp area 20 minutes ahead of time.

The train from Corpus Christi was due at 5 a.m., but chugged into the station at nearby Norristown ahead of schedule with its whopping load of youngsters.

They milled about for an hour in a driving rainstorm before they were placed on buses for the jaunt over the rolling countryside to the camp site where Gen. George Washington marshaled his ragged Continental Army during the winter of 1777-1778.

The first Texas contingent was followed by 300 scouts from Seattle, Wash., then a trainload of 250 boys from San Bernardino, Calif., and 500 more boys from Dallas, Tex.

News Tip Call May Mean \$5.00

If you've got a keen sense for news, it could mean extra bucks for you. Whatever the news tip might be, just phone the News Tip Editor, Courier and Times, Windsor 5-1000 or Stillwell 8-3325. For the best tip of the week, the Courier and Times will pay \$5.00.

Morrisville, Lower Makefield Groups To Talk Sewers

Exploratory Session Slated Tomorrow

The Morrisville Sewer Authority and the Lower Makefield Township Supervisors will sit down tomorrow night and talk sewers.

John Whalen, chairman of the Morrisville Authority, said the

meeting is set for 8 p.m. at the law offices of Curtin and Heetner. William Heetner is the solicitor for the Morrisville Authority.

First In Years

The meeting will be the first in several years since the birth of the Morrisville Authority with the Lower Makefield people.

Mr. Whalen said the meeting will be an "exploratory session" to see which way the separate groups are thinking.

The meeting was initiated, Mr. Whalen said, through a letter from the Morrisville Authority to the various boroughs and townships in the area.

One-Third Capacity

The letter stated that the Morrisville sewer system now is available to other municipalities and the present sewage plant is handling less than one-third of its capacity.

"We have an open mind to any particular arrangement on how to set up the use of our plant. We have a capacity that is not being used. We are interested in using it and that is the reason for this session," Mr. Whalen said.

Lower Makefield Township was the first municipality to respond to the Authority's letter and request a meeting to discuss the sewer situation.

For several weeks now, Lower Makefield has been discussing the possibility of sewers in the township.

Lower Makefield has met with Falls Township officials on the possibility of forming a joint authority.

Members of the Lower Makefield Board of Supervisors, Claude Johnson, Harry Hoffman and Russell Carter and members of the Morrisville Authority, Warren Long, Theodore Kupiec and Mr. Whalen are expected to attend the meeting.

Two Sailors Jump To Death

MONTEREY, Calif. (UP)—Two sailors aboard the heavy cruiser USS St. Paul jumped to their deaths off the California coast yesterday in an apparent attempt to desert.

The Navy refused to identify the sailors or give an explanation why they tried to jump ship at sea. A fishing ship, "Two Brothers," found one sailor's life-jacketed body about a mile off Point Pinos Lighthouse. A Coast Guard cutter found the second body.

A Navy spokesman in Monterey said the St. Paul radioed that "accomplices" of the men reported they jumped over the side of the ship shortly after it cleared the harbor here on a voyage to San Pedro, Calif.

The report said other sailors told authorities the two men threw a powder can full of civilian clothing into the water and then dove in after the can.

Civic Unit Invites Board To Meeting

The Lower Makefield Board of Supervisors have been invited to attend the session of the Makefield Civic Association tonight at Township Hall.

The supervisors will be asked to bring the association up to date on the latest situation with the sewer study in the township.

Lower Makefield is considering installing sewer lines in the township and has spoken to Falls officials and has a meeting planned with Morrisville officials on the subject.

Henry Hoffmeister, president of the Makefield Civic Association, will preside over the meeting.

Lions Club Sets Summer Activities

The Yardley - Lower Makefield Lions Club is not meeting during the summer but activity doesn't stop for the active group.

Kappy Kaplow, newly installed president of the group, said the club will go to a ball game in Philadelphia this month and have its annual picnic next month.

The ball game, a Milwaukee-Philadelphia clash, is listed for July 16.

Members and guests will leave from in front of the Yardley Community Center at 6 p.m.

More than 100 members and guests are expected to attend the outing under the chairmanship of John O. Dice.

Later in the summer, Aug. 24, the club will sponsor a family picnic at Washington Crossing Park.

Assorted games will be played highlighted by a pie-eating contest and a pin the tail on the donkey game.

No chairman has been appointed for this affair as yet.

4-Car Crash On Route 1 Injures Woman, Infant

Two persons, one a 10-month old baby, were slightly injured in a four-car, rear-end pile up on Route 1 at Woodbourne Road, Middletown Township, last night.

The injured were, Sarah DeVaney, 21, and Deborah DeVaney, 10 months, both of the Liberty Bell Trailer Park, Langhorne RD. They were treated and released at Lower Bucks County Hospital.

Middletown Patrolman Anthony Fergione reported that the injured were riding in a car driven by Sarah H. Price, 47, also of the trailer park. The car, which had stopped in a line of traffic at the intersection, was struck in the rear by another vehicle driven by Donald Paciolla, 21, of 3625 N. 11th St., Philadelphia.

The impact drove the woman's car into one driven by Alonzo Murry, 47, of 127 Winchester Ave., Langhorne. Murry's car in turn was forced into the rear of a truck, driven by Charles G. Miller, 28, of 6315 Cottage St., Philadelphia.

Admission is \$1.50 per person with children under six admitted free to the affair.

Henry Schwartzberg is chairman of the event.

Mr. Walters lived on Bonnie Road on the Casey Tract, north of Richboro.

Chief Jack Frey, Northampton Township police, investigated. Dr. Thomas E. Lindsay, Richboro, pronounced Walters dead at 8 a.m. today. He said the victim had been dead six hours.

The body was discovered by Warren Furness, New Britain, a driver for the Gardenville Dairies. Furness was about to make a milk delivery at Walters' home when he noticed the hose leading to the front seat of the car.

Mr. Walters had operated a service station at 6519 Bingham St., Philadelphia. The youngest of his 14 children is 9-years-old. His wife had died about a year ago.

Council Seen Acting On Street Extension

The possible finale to the Washington Street extension which has been a subject in the Morrisville Borough Council for many months may be written tonight.

The regular session of council is set for 8 p.m. at the borough hall.

Acceptance of the contracts turning over private property to the borough for the street is all that remains before the street can be cut.

It has been indicated that if the contracts are found agreeable and accepted by council tonight, the actual construction work may begin at the end of the week.

Property owned by Paul Sullivan has already been condemned by the borough and jury of view is to fix the purchase price.

Police pay is also expected to come up for discussion at this session of council.

Young Judea Group To Sponsor Picnic

Kappy Kaplow, a Yardley man, president of the Trenton Young Judea, announced the group will sponsor a picnic this Sunday at 2 p.m. in Royal Oak Inn, Pennington, N.J.

The group has several members from Lower Bucks County among its rolls.

Admission is \$1.50 per person with children under six admitted free to the affair.

Henry Schwartzberg is chairman of the event.

Father of 14 Found Dead

A 55-year-old Northampton man, the father of 14 children, was found dead this morning from carbon monoxide fumes in his car near his home.

Louis William Walters was the victim. A hose had been attached from the exhaust pipe to the front seat of the car Walters was sitting in.

Board Of Health To Hire Solicitor

Yardley Borough Council last night authorized the borough Board of Health to hire its own solicitor.

Henry O'Brien, president of the council, said the action was made necessary by the growth of the Board of Health in the past several months.

"The Board of Health has been doing much more work lately and needs its own legal advice almost immediately," he said.

Frederick Bebbington, borough solicitor, has been doing the legal work for the board of health.

Salary

The salary for the new solicitor will be paid by council at a rate to be fixed later.

Mr. O'Brien said no individual has been selected for the job but the selection would probably be made within the next several weeks.

The Board of Health now has five members, with David Rounds serving as chairman.

In other action, council was

"RIVER OF ARCHES"

Utah's river of arches, the Escalante, makes such sharp loops and turns in places that it can travel one-half mile and yet be only 50 yards from where it started.

brought up to date on the borough's proposed sewer study.

Commission

A commission has been formed to study the possibility of sewers in Yardley.

The commission completed its first organizational session this week, and the actual work report of the survey will not be completed for several months.

Morrisville Policeman Joins Fireman Ranks

To paraphrase an old saying, "A man works from sun to sun, a policeman's work is never done."

Morrisville policeman Frank Picciotti proved it again last night.

Officer Picciotti was riding in one of Morrisville's two police cars on patrol about 5 p.m. yesterday when he smelled smoke.

He hustled out of the car, looked for the fire, and saw it was coming from his own vehicle.

Grabbing a fire extinguisher, which is standard equipment in all police cars, Officer Picciotti doused gas which had spilled on the side of the car. Sparks caught on to the car wires and burned the vehicle.

Picciotti drowned the fire and had the car towed to Simpson garage for repairs.
